Other Benefits

Increasing maximum

The annual maximum benefit day one is \$1,000. After year one, the maximum increases to \$2,000. Insurance covers a maximum amount per person per benefit period for Basic and Major services combined.

Preventive Plus

Type 1 Preventive procedures are not deducted from the plan's annual maximum benefit. This saves all of the annual benefit to help pay for more expensive Type 2 and 3 procedures.

LASIK Benefit

Your LASIK benefit is a lifetime benefit that pays once per eye, and per-eye benefits cannot be combined to treat a single eye. The plan pays \$125 per eye day 1 and increases to \$250 per eye after year 2. You must be 18 or older to receive LASIK benefits.

*\$50 deductible per person for Basic and Major services combined, with a maximum of three deductibles per family.

**\$1,000 maximum benefit per person day one, \$2,000 after year one for Basic and Major services combined.

The Maximum Allowable Charge (MAC) claim allowance is the maximum amount a network provider may charge. If you select a network provider, you may have lower out-of-pocket costs. If you visit an out-of-network dentist, the claim allowance is considered at the Maximum Allowable Benefit (MAB), which is equal to the lowest contracted fee in your ZIP Code. Any difference between the plan allowance and the dentist's charge will be an out-of-pocket expense for you. Learn more about [MAC/MAB claim allowance](#).

The Ameritas Dental Network is one of the nation's largest. Network providers have agreed to charge 25-50% less than their regular rates which can lower your out-of-pocket costs. Find a [Classic \(PPO\) network provider](#) near you.

You can visit any dentist, in- or out-of-network. And family members do not need to visit the same provider. Use our [dental cost estimator](#) to find average procedure charges in your area. The estimates do not include network discounts or plan benefits.
